IN PURSUIT OF PROVIDING QUALITY HEALTHCARE THAT IS AFFORDABLE AND ACCESSIBLE
We have been consistent in our mission to provide quality healthcare at affordable cost to the people we serve, ever since we started the journey of “Caring Mission with a Global Vision” almost three decades back. This rhymes well with the universal healthcare philosophy of Quality, Affordability and Accessibility.

In the area of Quality we can showcase umpteen awards and certificates proving our credentials, but more importantly it runs deeper in the DNA of Aster DM Healthcare. Our teams drive the quality program as the corner stone with a strong belief that there is no finishing line in the race for excellence.

Healthcare worldwide is becoming more and more expensive, but we try to make our services Affordable. Healthcare, though deemed as an ‘industry’ is much more than that – we strongly believe that profit should be a byproduct and not the aim in healthcare, which helps us to transcend into our core values, of Compassion, Integrity and Respect. In an exercise to serve all sections of the society, we have rolled out different brands with varying price bands. We also provide support to those who are in need through our Foundations and CSR activities.

Accessibility to healthcare services is a very important focus area for us – we provide services closer to our customers through the large network of clinics and pharmacies – however, this is only like touching the tip of the iceberg. We are in the process of rolling out programs, leveraging Information Technology to make accessibility much wider and deeper, carrying delivery of healthcare to the homes of people.

Our recently adopted brand promise, “We’ll Treat You Well” is actually a promise to all our internal and external stakeholders, which include our partners, employees, patients, business associates and public. From top down, we promise our internal stakeholders that we’ll treat everyone well. Then as Asterians, we sing a chorus to our external stake holders that we’ll treat them well.

Many ask me the recipe for our success – from a single doctor clinic in Dubai to a network of nearly 300 establishments, spread in 9 countries with over 13,000 staff. I strongly believe that it has been due to the blessings of the Almighty, the support of the visionary leaders and people of the countries we operate and the hard work of the united and passionate team of Asterians.

Dr. Azad Moopen, MD
Founder Chairman & Managing Director
Aster DM Healthcare

“BLESSINGS OF THE VISIONARY RULERS OF THE REGION”
SPREAD ACROSS THE MIDDLE EAST, INDIA AND GROWING ACROSS ASIA
1987: Dr. Azad Moopen, a doctor turned entrepreneur establishes Al Rafa Polyclinic in Dubai, marking the beginning of one of the most trusted and admired healthcare empires.

Today: From a single clinic to a performance-driven healthcare enterprise spread across more than 290 establishments in 9 countries and growing, Aster DM Healthcare has transitioned into being the leading healthcare authority across the Middle East and India.

Currently one of the largest and fastest growing conglomerates in the MENA region, Aster DM Healthcare covers the full spectrum of healthcare services. An expansive portfolio includes hospitals and clinics, pharmacies educational institutions, healthcare management and healthcare support systems.

Never content to rest on its laurels, Aster DM Healthcare is constantly seeking opportunities to set new yardsticks with advanced developments. A move towards this unique vision is the Aster Medcity, a project on a mammoth scale that covers more than 3 million sq.ft and focuses on setting global benchmarks in medical care. With many more innovative and ambitious initiatives, Aster DM Healthcare has radically catalyzed the healthcare revolution in the Middle East and India.

Aster DM Healthcare verticals are a symbol of distinction, driven by the commitment to build a healthier tomorrow and to take healthcare to the next level of excellence.

THE LARGEST HEALTHCARE ENTERPRISE, TOUCHING MILLIONS OF LIVES EVERY YEAR
AT THE HEART OF THE ORGANISATION, ETHOS TO LIVE BY

OUR VALUES

Excellence – Surpassing current benchmarks constantly by continually challenging our ability and skills to take the organization to greater heights

Compassion – Going beyond boundaries with empathy and care

Integrity – Doing the right thing without any compromise and embracing a higher standard of conduct

Respect – Treating people with utmost dignity, valuing their contributions and fostering a culture that allows each individual to rise to their fullest potential

Passion – Going the extra mile willingly, with a complete sense of belongingness and purpose while adding value to all our stakeholders.

Unity – Harnessing the power of synergy and engaging people for exponential performance and results

OUR PROMISE

“We’ll Treat You Well”
A promise that sums up what we do and why we exist. One that we strive to honour every day, every moment.

VISION

“A Caring Mission with a Global Vision”

We’ll Treat You Well
A SYNERGISTIC INTEGRATION OF HEALTH, FROM PRIMARY TO QUARTENARY CARE - ALWAYS WITH PATIENTS AT THE CENTRE

A forerunner of integrated care in the Middle East and India, Aster DM Healthcare’s futuristic vision has ensured that it covers the entire gamut of healthcare services and medical technology – ranging from hospitals and clinics to pharmacies, educational institutions and healthcare support systems.

Through every business vertical, Aster DM Healthcare leads by example by focusing on excellence, technological superiority, a patient-centric approach, and an ethical viewpoint. Today, each of our establishments stand apart as citadels of excellence, with a clear vision that balances the interests of patients, the country and stakeholders alike.

The nerve centres of the Group are consolidated under 4 of the most recognized brands - Aster, Medcare, Access and DM WIMS.

Proving primary and secondary care through Aster Clinics and Pharmacies; tertiary care through Medcare Group luxurious multi-specialty hospitals and clinics, along with Access Clinics which lends hope beyond monetary constrictions. Aster DM Healthcare has built a holistic network of care in the GCC. In India, the renowned Aster MIMS Hospitals at Calicut and Kottakkal have set new precedents in the healthcare environment.

The iconic Aster Medcity ushered in the first of several quaternary care centres launched by the Group in India and has become the focal destination for healthcare tourism from across the world. Parallelly marking the first foray of the Group into Medical Education, the DM WIMS Medical College and Hospital at Wayanad, India produces and nurtures the aspirations of high calibre healthcare professionals.

Our fast growing network has always managed to defy industry standards despite expanding exponentially, while setting goals of more milestones in the coming years.
Rapidly mushrooming all over the Middle East and India, with more than 12 hospitals rendering superlative and compassionate care, Aster Hospital is a 100-bed tertiary care facility with 5 operating theaters. It features level 3 Neonatal Intensive Care units, which are among the most advanced in the country. A multispecialty hospital that offers the highest level of medical excellence alongside impeccable standards for patient care, Aster Hospital is complemented by brilliant medical experts, medical practitioners, nurses, technologists and support staff who bring in a professionalism that has no parallel. The hospital combines the latest advances in medicine with a truly remarkable level of warmth and compassion, culminating in a seamless and comfortable experience. Spreading its essence by expanding into new markets, Aster Hospital is touted to transform the healthcare scenario across the world.

www.asterhospital.com
When Aster Clinic took its first infant steps in 1987 towards ushering in qualitative changes in medical services, little did we know that it would become one of the largest and most widespread network of medical centres across the Middle East. We have spent the last two decades strengthening and evolving the brand, which has now become synonymous with high quality and excellent service across the communities we serve.

Not only is Aster Clinic one of the biggest integrated networks in the region, but it has also successfully reshaped the healthcare landscape across the neighbourhoods that it operates in. Putting the patient at the core of our operations, we have developed robust quality standards, enhanced professional expertise and spacious infrastructures to render the most comfortable and satisfying experience.

Bringing together these elements, we have set the benchmark for healthcare in the region. As the years have gone by, we have added more centres to keep up with the demand generated by the trust placed in Aster Clinic.
Established initially as a support diagnostic clinic, Diagnostic department has today evolved into a multifarious laboratory with facilities for a wide range of routines, as well as sophisticated tests. Diagnostic department is the first of its kind in the Middle East to be accredited with the world’s most coveted Joint Commission International (JCI) Quality accreditation.

Meeting international standards in laboratory services and organization management, Diagnostic department continues to deliver quality through stringent checking of work flow, staff knowledge, and state-of-the-art of machines. With an excellent track record in accurate and timely investigative reports, Diagnostic department is approved and accessed by specialists throughout Dubai.

The numerous certifications we have received over the years are testimony to this creed of excellence. Over the years, both the medical fraternity as well as our patients have reposed their faith in us, while we evolve our understanding of the entire patient care continuum—from prevention and early detection to diagnosis and treatment. Our services offer the right balance of science, technology and practicality to provide healthcare professionals with the vital information they need to deliver better, more personalized care to patients.
Recognized today as the region’s leading pharmacy retail chain, Aster Pharmacy started with a focus of making healthcare delivery more customer-centric and accessible. Offering the entire gamut of curative, nutritive, baby products, lifestyle, wellness products, FMCG products, cosmetics, personal and home care products, Aster Pharmacy has become a household name in the UAE and has emerged as the preferred choice amongst pharmacies.

Aster Pharmacies have already dotted the healthcare landscape with over 170 pharmacies throughout the GCC, serving thousands of customers daily. Our reward and loyalty programs have pioneered a revolution in the medical retail arena with value services like ATM (Any Time Medicine) to deliver products at home anytime, while information on offers, schemes and promotions by e-mail and SMS ensure Aster Pharmacies offer ‘much more than medicines’.

Further augmenting our stand, our association with cricketing legend Sachin Tendulkar as our brand ambassador reflects the high level of dedication and quality exemplified by Aster Pharmacy. Aster Pharmacy seeks to enhance the products and services offered across new channels and markets, keeping quality as paramount.

Diversifying our profile to embrace every aspect of healthcare, Aster Pharmacy now includes Aster Opticals and Aster Health Shop. The verticals will cater to the growing demand for high-quality products in eye care and nutrition respectively.
Envisioned for those who seek fine medical care in even finer surroundings, Medcare Hospital is Dubai’s first premium private specialty hospital offering luxury medical services. Testimony to the elite standards at Medcare is the world-renowned accreditation - the Joint Commission International (JCI), which is considered a gold standard for hospitals across the world. At Medcare, along luxurious hallways and spacious rooms and suites filled with amenities, patients receive state-of-the-art treatment with a level of comfort that is reshaping hospital care.

Catering to patients from different parts of the world, Medcare takes into account every nationality’s unique requirements. Created to enhance the hospital experience for discerning patients and their visitors, everything from the attentive and welcoming staff to the interior design details has been carefully selected to provide a distinct healing environment, where patients receive expert care from skilled practitioners.

The successful reception of Medcare gave rise to Medcare Orthopaedics and Spine Hospital (MOSH), which is now one of the finest medical facilities providing superior medical practice in the region. As the need for luxurious hospital care and accommodation increases in the region, the Medcare brand has undergone several changes to offer superlative medical care to the community of Dubai and the adjoining Emirates. Successfully branching out with its strong model of excellence, Medcare hospital branches have been recognized by governing bodies as award winning initiatives, where a robust corporate and clinical governance mechanism keeps pace with current international practices.

Upcoming Hospitals

Medcare Women & Children Hospital, Dubai

Medcare Hospital, Sharjah
Medcare Orthopaedics and Spine Hospital is one of the finest medical facilities providing premium and state-of-the-art medical practice in the region. Medcare brand has undergone several expansions to offer the best medical care to the community of Dubai and the adjoining Emirates.

Our onboard medical practitioners are leading names in orthopaedic and spine disciplines, with equal concentration in medical and surgical practice, and advanced training in a wide range of Orthopedic sub-specialties. The hospital has the ability to accurately diagnose and treat all levels of orthopaedic ailments from basic injuries to the most complex of orthopaedic issues concerning joint, hip, knee, shoulder, fractures etc. The doctors and the support staff are highly educated and oriented with the best practices in the medical field. They have several years of experience in treating a vast range of orthopaedic cases. The orthopaedics surgeons at our hospital specialize in the prevention, diagnosis and treatment of disorders of the musculoskeletal system.

Medcare Orthopaedics and Spine Hospital boasts one of the largest and most comprehensive associations of Private Orthopedic surgeons in the Emirate.

Our mission is to ensure a well structured and defined mode of dialogue between the patient, doctor and the support staff, which will enable us to provide a superior patient experience. It is also our mission to create a feeling of family by providing a safe and secure environment.

Medcare Orthopaedics and Spine Hospital continues to develop innovative and effective ways to bring expert and compassionate medical care to all ages. We offer specialized treatment and management of orthopaedic conditions such as:

EMPOWERING PATIENTS, REDEFINING DIAGNOSTICS THROUGH INDIVIDUALIZED CARE

Access Clinic aims to provide affordable and quality healthcare services to address the day to day healthcare needs of the people of UAE. The clinics located in the industrial and residential areas in Dubai, Sharjah and Ajman cater mainly to the working class and their basic healthcare needs and aim to grow in other regions as well. To maximize convenience and comfort, Access Clinics have been designed as an integral model and offer primary healthcare facilities alongside allied services including X-RAY and Laboratory facilities. Access Clinic aims to empower patients through complete primary healthcare, adequate knowledge, individualized care and compassionate treatment - all under one roof.

www.accessclinic.com
Aster Al Raffah Hospital is one of the premium hospital networks in Oman. Having established two operating hospitals: Aster Hospitals in Muscat and Sohar along with a few Clinics, Polyclinics, Pharmacies and a Corporate Clinic, Aster DM Healthcare is gradually spreading to cover the Sultanate of Oman with optimal healthcare facilities.

Al Raffah Hospital offers all specialties like general medicine, general surgery, ENT, pediatrics & neonatology, dermatology, ophthalmology, dentistry, gynecology & obstetrics. It also offers super specialty services like cardiology, urology, neurology, plastic surgery, gastroenterology, pulmonology, nephrology, psychiatry and laparoscopic surgery.

It has to its credit some of the most leading surgeons & physicians in the world. With a full-fledged round the clock OT facility, ICU & 8 bedded emergency unit, Aster Al Raffah Hospital is now equipped with most advanced equipment, MRI unit & expertise to provide world class care 24 x 7.

Departments of excellence include Gastroenterology, Orthopedics, Paediatrics, Gynaecology, Infertility and Urology.

Aster Al Raffah Hospital, Sohar has recently achieved the much sought after Joint Commission International (JCI) accreditation and earned the coveted Gold Seal of Approval in quality and patient safety, adding one more feather to its cap. Also, it has been awarded as one of the best hospitals in Oman by MOH recently.
Sanad Hospital is a 233 bed multi-specialty hospital spread over an area of 20,000 sq.mtrs. It is a state-of-the-art facility located at a prime location in North-East of Riyadh, KSA. The hospital was founded in 2007 and receives highest number of trauma patients from Saudi Red Crescent. The hospital offers secondary care and selected tertiary care services. The edifice is distributed over 5 floors with round-the-clock Emergency Services, a fully equipped Cath lab, ambulatory and day surgeries unit, 50 Out-patient specialty clinics, 33 fully equipped ICU beds and 30 NICU beds. The hospital also dedicates 2 floors exclusively for In-patient care, 6 Operation Theatres, 6 Labour and Delivery rooms and Haemodialysis unit. It has also has well-equipped isolation rooms.

Sanad hospital is designed to offer patients the most innovative treatments and technologies available in Saudi Arabia in a safe and compassionate environment. The radiology department and medical laboratories are equipped with high-end medical equipments. The hospital also acts as a consultant based services facility. It has experienced consultants along with a qualified medical team.

Set in a soothingly beautiful 40 acre waterfront campus in Kochi, Kerala, India, Aster Medcity is the flagship venture of Aster DM Healthcare. A 670-bed quaternary care facility in its first phase, Aster Medcity has one Multispecialty Hospital and eight dedicated Centres of Excellence in Cardiac Sciences, Neurosciences, Orthopaedics & Rheumatology, Nephrology & Urology, Oncology, Women’s Health, Child & Adolescent Health and Gastroenterology & Hepatology. It intends to add on more CoEs and other facilities in the coming years.

The first quaternary care hospital in Kerala to win the JCI accreditation, Aster Medcity is the first in India to achieve all relevant accreditations and certifications within one year of opening its doors to the world. This includes the NABH Accreditation (National Accreditation Board for Hospitals & Healthcare Providers), Green Operation Theatre Certification by Bureau Veritas, ISO 9001:2008 Certification for quality management, ISO 22000:2005 (HACCP) Certification for food safety and the first ever NABH Nursing Excellence Award.

What sets Aster Medcity apart is its exceptional team of highly experienced doctors who take time out to listen to patients carefully, understand their medical problem holistically and recommend the best way forward.

One of the most advanced healthcare destinations in India, Aster Medcity offers a comprehensive range of state-of-the-art medical technology to facilitate efficient and accurate treatment including South Asia’s first ORI Karlstroz fusion integrated operation theatres with autopilot anaesthesia, India’s first flat panel bi-plane vascular hybrid cathlab, India’s first ROWA robotic pharmacy, South India’s first ICCA (IntelliSpace Critical Care and Anaesthesia) ICUs, Kerala’s first fourth generation Time of Flight 16 Slide PET CT and Kerala’s first True Beam Linear Accelerator for high-precision radiotherapy.

Aster Medcity has also integrated Ayurveda, the traditional Indian system of medicine that helps balance the humors of the body to achieve physical, mental and spiritual wellbeing in a completely natural way.

One of the largest facilities of its kind in India, the Emergency Department at Aster Medcity offers Integrated Emergency Services including air evacuation, water ambulance, ICU ambulances and first responder service on motorbikes.

Patient-centric in terms of philosophy as well as design, Aster Medcity lives by its simple promise: We’ll Treat You Well.
The remarkable success story of the Aster Malabar Institute of Medical Sciences (Aster MIMS) has set a new precedent for medical care across Asia. India’s first NABH Accredited Multi-Specialty Hospital, Aster MIMS was established in 2001 in Calicut, Kerala, rapidly transforming into a premiere regional specialty hospital with 600 beds and bringing international healthcare within the reach of the local community. Aster MIMS - Kottakkal, a 150-bed tertiary level super specialty hospital, has made a significant change to the health and wellness in and around Kottakkal and beyond.

Excellence at Aster MIMS is reflected in every area - be it infrastructure, technology, service or in the caliber and skill of our medical fraternity. Pioneering quality in healthcare delivery, MIMS keeps in step with changing patient demographics and sets new benchmarks year after year.

Today, Aster MIMS has transformed into a widely recognized entity across Asia, becoming a popular medical destination. Exemplifying care of global standards, a team of physicians and supportive caregivers are singularly focused on providing patients with advanced medical treatments combined with compassionate, personalized healthcare.

Keeping its ethical viewpoints intact over the years, Aster MIMS provides superior healthcare through a philosophy of generating profits only as a by-product. Taking a step further towards a humane goal, Aster MIMS Charitable Trust provides absolutely free or subsidized cost medical treatments to economically backward communities.

As Aster MIMS continues to garner appreciation worldwide for its distinguished work, we also aim to make it a global destination of healthcare facilities in the coming years.
Set up initially in 1996 by a group of seven doctors from different specialties, and earlier known as Aadhar Nursing Home, the multi-specialty Aster Aadhar Hospital is today a 175-bed established medicare facility serving the community in and around Kolhapur district including adjoining cities of South Maharashtra and North Karnataka.

A vision to constantly improve, transform and upgrade quality of healthcare delivered and meet the needs of an increasingly discerning population the world over, led Aadhar Hospital to take a strategic direction and form a Joint Venture (JV) with like-minded globally renowned DM Healthcare LLC, a multinational progressive healthcare group.

At Aster Aadhar Hospital, developing processes to deliver reliable patient care by having advanced medical technology, well qualified medical, paramedical and admin experts is the core ingredient of our way of life.

ENABLING COMMUNITY MEDICAL CARE THROUGH MULTI-SPECIALTY OFFERING

www.asteraadhar.com
A HOSPITAL BUILT ON A CULTURE OF EXCELLENCE

Aster CMI Hospitals, Bengaluru is DM Healthcare’s continuation of its endeavor to create world-class, patient-centric hospitals driven by medical innovations and a culture of excellence. Aster DM Healthcare group, having taken up the challenge of revamping the existing massive structure, launched a comprehensive super-specialty hospital with contemporary state-of-the-art facilities accommodating close to 500 beds. Aster CMI hospital offers comprehensive primary care to quaternary care services with Centres of Excellence in Cardiac sciences, Neuro sciences, GI Sciences, Oncology, Organ transplantation and minimally invasive surgeries backed by high end critical care, emergency medicine and an advanced centre for women and children.

Everything at Aster CMI is designed keeping in mind the comfort of our patients. The serene environment, spacious interiors and advanced facilities create a positive ambience that is conducive to healing. In a nutshell, Aster CMI stands out from the rest of the peer hospitals on the hospitality front.

www.asterbangalore.com
Since inception in 2007, Aster Prime Hospital has been providing quality, affordable and ethical medical care to patients belonging to different strata of society. The hospitals, located at Ameerpet and Kukatpally in Hyderabad, have expert and renowned doctors providing patients with round-the-clock attention and care. Both hospitals are full-fledged multi-specialty centres with state-of-the-art medical infrastructure that includes advanced Cath Lab, CT Scan, Color Doppler, Ultrasound and other diagnostic services. As a leading healthcare enabler, Aster Prime Hospital provides patients with the latest technological innovations for diagnosis and treatment of the most acute clinical conditions.

DELIVERING ETHICAL AND AFFORDABLE MEDICAL CARE

www.asterprime.com
At Aster DM Healthcare, we are committed to the achievement and maintenance of excellence in education and research. We firmly believe that trained and dynamic healthcare professionals can alter the way care is provided.

DM WIMS Medical College and Hospital was established in Wayanad, Kerala, India to be the academic philanthropy of Dr. Moopen’s Education and Research Foundation (DMERF) which was also formed to promote medical education and subsidized treatment.

A much-respected and sought-after institution, DM WIMS Medical College and Hospital adopts a comprehensive outlook with innovative educational models and curricula that address emerging needs in healthcare which in turn have helped produce thousands of physicians and compassionate caregivers who are shaping the field of medicine with their expertise and passion.

Apart from the medical college, DM WIMS also has the Nursing and Paramedical College which was established in 2014 that trains young and aspiring medical practitioners to be the best healthcare providers in India and beyond. With the increasing demand for nurses worldwide, students are prepared for the demands and challenges of the profession as they take Graduate, Masters and Doctoral levels of education.

Set in the lush and sprawling 50-acre campus conducive to studying, DM WIMS offers medical specialties in a hands-on and practical way within the multi-disciplinary general hospital. The facility consists of a centrally-located hospital (Wayanad Institute of Medical Sciences) and is surrounded by academic blocks, hostels and staff accommodation. Mentored by distinguished experts and faculty, the institution churns out world-class professionals who improve lives every day.

While emphasizing regional needs and exposing the students to global standards, DM WIMS, as an associate medical college, will play a crucial role in the overall development of medical practices by creating both employment and entrepreneurship opportunities.

Setting its sights even higher, DM WIMS is embarking on further enhancing its reach, combining knowledge, skills and attitudes that promote excellence in education and research.
Dr. Moopen’s (DM) Foundation is the broad umbrella under which CSR activities of Aster DM Healthcare & Social initiatives of Aster DM Foundation and Dr. Moopen Family Foundation are being carried out. DM Foundation work in tandem with associate organizations such as MIMS Charitable Trust and Social Advancement Foundation of India (SAFI) where Dr. Moopen is actively involved.

The activities of Dr. Moopen’s Foundation are targeted towards areas in India, Africa, Philippines, Afghanistan and the Middle East.

**“Care Beyond Boundaries”**

Aster DM Healthcare’s success is built on a foundation of personal and professional integrity. We hold ourselves to the highest standards of ethical behavior that go beyond our scope of business, aligning ourselves to the interests of not just our patients and stakeholders, but also to millions who are directly or indirectly impacted by our activities.

**BRINGING HOPE, BRIDGING BARRIERS**

1. Stand-alone Community Dialysis Centres (SCDC’s)
2. Early Disease Detection and Cancer Screening Centres (EDDC’s)
3. Stand-alone Radiation Oncology Centres.
4. Help on Wheels – “Mobile Clinics”.
5. Free Paediatric Cardiac Surgery Programme – “Save The Little Heart”.
7. Medical Interventions - Free or Subsidized Surgical Treatments.
8. Village Adoption - Socio-Economic Intervention (“MILES”).
9. NGO Support and Charities.
